PROJECTS

Full-stack Uber Clone Application ↗
Nov 2024

•Developed a full-stack Uber clone application using React Native and Expo's latest features for a native mobile experience. •Implemented a lightning-fast, edge-ready Postgres database to ensure reliable, low-latency data access. •Designed intuitive, user-friendly interfaces with real-time ride tracking, booking, and notifications. •Focused on responsive UI and smooth animations for an engaging user experience on both iOS and Android. •Optimized for scalability and performance to support high user demand and real-time updates.

Weather App ↗
Jul 2024

•Created a dynamic weather app providing real-time weather data based on user location. •Utilized JavaScript, HTML, and CSS for responsive UI and seamless user experience. •Integrated API calls for accurate current and forecasted weather information. •Designed for accessibility and optimized for both desktop and mobile platforms. •Enhanced user experience with intuitive navigation and clear data visualization.

Banking App with Finance Management Dashboard Using Next.js 14 ↗
May 2024

•Developed a comprehensive banking app featuring a finance management dashboard with Next.js 14. •Enabled real-time data tracking, budgeting tools, and expense categorization for effective financial management. •Leveraged Next.js for optimized performance, server-side rendering, and enhanced security. •Designed an intuitive, user-centric UI with responsive layouts for mobile and desktop compatibility. •Integrated data visualization to provide clear insights into financial activities and trends.

3D Portfolio with React.js & Three.js ↗
Oct 2024

•Developed a 3D interactive portfolio using React.js and Three.js to showcase skills and projects. •Implemented visually engaging 3D models and animations to enhance user experience. •Optimized for performance and responsiveness across desktop and mobile platforms. •Focused on seamless navigation and intuitive UI design to highlight professional expertise. •Applied best practices in 3D rendering and web performance for fast load times and smooth interactions.

Portfolio Website ↗
Jun 2024

•Developed a responsive personal portfolio website to showcase skills and projects. •Utilized HTML, CSS, JavaScript, and Figma for seamless UI/UX design. •Integrated interactive elements for an engaging user experience. •Optimized for mobile and desktop for accessibility and usability. •Highlighted expertise in full stack development, UI/UX, and design tools.

AI SaaS Platform ↗
Mar 2024

•Built and deployed a full stack AI SaaS platform using Next.js 14 and TypeScript for robust, scalable architecture. •Integrated Stripe for secure payment processing, enabling seamless subscription and billing features. •Leveraged Next.js server-side capabilities to optimize performance and enhance user experience. •Designed responsive, user-friendly interfaces, ensuring accessibility across devices. •Developed and implemented AI-driven features to deliver intelligent, value-added services to users.

SKILLS

• UI & UX Design
• Tailwind CSS
• ReactJS
• PostgreSQL

• JavaScript
• React
• Express.js

• HTML&CSS
• Node.js
• MongoDB
